Voted to adjurn the meeting to Thursday the Twenty first Day of January Instant at Two of the Clock afternoon:

at which adjournment the Committe Reported the following Draft, which was unanimously agreed to ——

We are fully of opinion, that the Inhabitants of this province are Justly entituled to all the Priviliges of Englishmen, & to all those Rights, inseperable from them as members of a free Community - We are also Sensible that Some of those Rights are at present endangered. In Such unhappy Circumstances, the only Question that can be made is this, what method is most Suitable to obtain a Redress. Whatever Doubts may arise about the particular mode, this we are Clear in, that all Rash, unmeaning passionate Procedures are by no means Justifiable in So Delicate a Crisis, when a Community thinks any of its Rights endangered, they Should always weigh Consequences, and be very Cautious least they Run into a Step, that may be attended with the most deplorable Effects. The Cause of Liberty Says a very fine Writer, is a Cause of too much Dignity, to be Sullied by Turbulence and Tumult. "When the Passions of a People are Inflamed, Reason is too often Silenced, and they soon forgit the Cause, they originally imbarked in, whereas the Patriot on true principles, always endeavours to Keep those Principles in View. Conscious that he is a member of a Community he will endeavour to Come up to all the Obligations Resulting therefrom, & to keep every part of it entire. Therefore while he Coolly but firmly pleads his own Rights, he will never forget those of his Sovereign; but is always Sensible, Loyalty to the prince & a Regard to the Liberties of the Subject, are very Consistent things.

These are Sentiments we are very full and Clear in, and by them we hope to Regulate our present Conduct. Provided nev

at present Labour under: But we can by no means think the Resolves of a Single Town can be any Remonstrance. We heartily Concur with our Brethren of Boston, that it is high Time, these Grievencies be Redressed; but then we think the general Court is the only Proper Body to Reform this Evil. The Cause of Liberty never more Suffers, than when measures are pursued for it Success that can never answer the end proposed. We are therefore of opinion that we can do nothing. Consistent with that Wisdom, which will ever govern a free people. But Prepair the following Instructions to our Representative, which we Heartily and unanimously Concur in —

To Mr Simeon Spalding, Representative of the Town of Chelmsford, in the General Court of this Province:

Sir.

As the Present aspect of the Times is Dark and Difficult, we Do not Doubt, but you will Chearfully Know the Sentiments, & receive the Assistance of those you Represent. The matters that may now come under your Cognizance are of great Importance. The highest Wisdom therefore, Prudence and Circumspection, is evidently necessary. We would earnestly Caution you, and your own good Sense will easily See the propriety of it, by no means to Consent to any Rash Passionate Plan of action, which will not only Sully the Dignity, but finally prove the utter Destruction of the Cause, we pretend to Support. Such Behaviour, no private Person can Justifie: State, Stamp Duties, The Stipend annexed to the office of the Judge of the Superior Court, is Complained of as a grievance. but will it not be Proper at least to inquire, wether this is not in a great measure owing to some Defect in our Selves. wether the Provision formerly made by us was not miserably Deficient, and utterly unworthy the highest Court we boast of, & the Dignity of the Province it Self. as to the Removal of grievencies, we do not Doubt, your own wisdom, & the wisdom of your Brethren, will Invent some Suite the mode of Redress. We hope the Gentlemen, and those Reflection that involve Persons and things

and which
and these too frequently used, may be utterly banished. We
hope every Determination will be founded in the nature
of a free State; and that therefore every Privilidge, ~~of~~
~~Consequence~~ annexed to each part, may be Religiously
Observed. & if Consequence, you will be Carefull, not to trans
ple on majesty, while you are firmly, but Decently
Pleading the Liberties of the Subject. In fine. Sir we wish
you that Wisdom which is from above, & we pray God.
that your Conduct in this Important Crisis, may be such
as the Coolest Reflection will ever after Justifie

Recorded by David Spalding Town Clerk

At a very full meeting of the freeholders and other Inhabitants of the Town of Chelmsford may 30th: 1774, in Consequence of Letters Sent to the Committe of Correspondence of this Town, from the Committe of Correspondence of the town of Boston, Containing matters of as great Importance as ever Came before a Town meeting

Voted mr Jonathan Williams Austin moderator

Voted mr Jonathan William austin, Capt. Oliver Barron, mr Samuel Perham, David Spalding, mr Benjamin Walker, Deac. Aaron Chamberlin, Capt. moses Parker, mr. Samuel Stevens, Junr. and mr. Simeon Spalding, be the Committe of Correspondence and that any five of the Same Committe may Constitute a meeting

The town then Proceded to give their Sentiments, It is the — opinion of this Town, that the Present Day is a Dark and Distresing a Day as this Country ever experienced. perhaps the Liberties of this Land, in no period, from the first Settlement of our Fathers, were ever So endangered as at present. And when we Consider the aspect of the times, not only what has already taken place, but what we are Immediately threatened with, we must think that the Question is, wether we Submit to the arbitrary Cruel, tyrannical will of a minister, or by exerting those Powers given us by the god of nature, and which it were Sacrilledge to Surrender, prevent So awfull a Catastrophe, and it is extremely afflicting to us to Consider, that if we are made Slave, we are so made by a nation, whom we ever gloried in as a parent on Stele, whose Honor was Dear to us, and to Secure whose Reputation the best, the Purest Blood of this Country has been Spilt. and who ever is acquainted with the Annals of America must know. that their never was a time, when it was our ambition to expend life & Treasure for the Service of great Britain. and when after all this waste of Blood & treasure, we found acts taking Place for the Purpose of raising a Revenue, the Direct tendency of which was to entail Slavery on us and our Posterity, we were willing

willing to impute it to any other cause, than a fixed Intention to enslave. and it has been to the Honour of the several towns of this Province, in their Instructions, and of the House of Representatives in their proceedings, that they have remonstrated & reasoned on the nature, Tendency and unhappy Consequences of such acts. But these Remonstrances, these arguments have been totally disregarded. and as this was not sufficiently afflicting to us. the Capital of the Province is actually ruined, by an act of Parliament, which we must say is as cruel, and Severe an act as ever originated in the Breast of any minister in the worst of times. an act, that not only ruins that town, but must in the end prove the Destruction of us all. and when we consider the Temper of the Present minister, his Influence once in the Present Parliament & the Bill he has brought in to alter our civil Government, we justly fear a Compleat System of Slavery is forming for this Province, the worst People ever unhappily Experienced.

In this Dangerous and critical Situation, after cool and serious Thought these are our Sentiments, that the notion of the Right of the parliament of great Britain, their taxing the People for the purpose of raising a Revenue is wholly unconstitutional and which we never will submit to. Taxation without Representation we have no Conception of, and as we suppose it to be productive of absolute Slavery. So we must be Justified in never Submitting to it. we have too many Instances in the History of mankind of the unhappy Consequences that attend a Contrary Doctrine. when once a people have yielded the Right of granting their own monies, and permitted the King to exercise this power, when and in what manner he pleases, that moment they become Slaves. Those who once free but in Consequence of Such Behaviour, their Estates and Lives are at the absolute disposal of the monarch. The Cortes of Spain had once the same Rights with our parliament! But having allowed the King on a particular occasion to raise monies without their Interposition, they lost their authority. and the people

People their freedom.

The present act respecting the Blocking up the port of Boston, we esteem dangerous and Destructive. If the head of the province is Demolished, we look upon the Consequences in a political Sense, as minous as in a natural. In both Cases the members must Suffer with it. and Considering the Bills which are now in agitation, we are of opinion, the present act is Like the Bird of noach, Sent over the Waters: if it find footing here, every other Evile will certainly follow.
we are not So lost to every generous principle of the humean mind, as not to Sympathise with our Brethren of Boston, who have in a more peculiar Sense been Straggling in our Common Cause. and are now Suffring for our Common Liber-ties. and as we think this act So very Severe and Cruel, and Consider at the Same time the principle on which it was Sent, So we are Determined to Support with all our power the town of Boston in Defence of Rights Common to us all — and while we are Sensible our Cause is Right, we are Resolved never to Submit to the Iron Hand of Despotism and oppression. It is with Grief we find the House of Representatives removed from their aniient Seat in Boston. we Shall not examine into the particular Causes of this procedure, we hope that as former House have Resolutely protested against this Indignity, the present House will not tamely acquiesce in it. we Submit this to the wisdom of the House, and have no Doubt they will act worthy the guardians of a free people.
one thing further, we think it our Duty to mention in the present Emergency. we are Informed that an address has been prepared to the Late Governor Hutchinson, by Gentlemen in Different Depart-ments on his leaveing the province. we are of opinion that an Handle may be made of this proceeding by our Enemies — who are numerous and Crafty, as if his administration had been agreeable & happy to this people. we by no means Intend to Question the uprightness of those Gentlemen's Intention. but as a Town, and as a part of the Community. we are obliged to say that so far from thinking that the Late governor was

a

a friend, we cannot but look upon him to have been very
Inimical to the province, and we think the man, who would
willingly "abridge english Liberties," would as willingly be the
Town of Boston Ruined & the civil peace of the province abated.
and we expect the base Treatment, which that Illustrious
Defender of american Liberty Dr. Franklin has received for
Detecting Such wicked Designs. but we have the pleasure to
be assured he may be reviled, but cannot be disgraced. may he
Still live to be the guardian of our Rights, and the Scourge to
the Enemies of Liberty on both Sides the atlantic; and when he
Dies, have a monument of marble erected to his memory —
In fine, when we Consider what a melancholy Situation our
Public affairs are in; acts of Parliament sent over to enslave us
and because Resisted, threatned to be dragooned into obedience
when our Capital is ruined, and the many thousands of her
poor, expected to want and all the Horrors of poverty and
misery and our other Sea-ports, out of a generous principle,
Reducing themselves to the Same pitiable Circumstances,
our Hearts bleed within us. what can be thy policy O Britain,
by this Conduct. not only our poor, but thousands of thine
own Subjects must Suffer with them. Torn from the by So
— violent an Effort, Britain must bleed in every Vein.
But in Such a Situation, we dont think it Sufficient to weep
only at the Distresses of our Country. we think our Union is
our Life. the Contrary is Death. we mean therefore to preserve
this union Inviolate at all Hazards, and we are Determined in
a manly, firm, virtuous and joint way. neither cajoled on the
one hand, nor Intimidated on the other. to Secure and Defend
those Liberties, purchased for us by our ancestors. at the Expence
of So much Blood & Treasure; - and before they are wrenched from
us. to Struggle hard, very hard for them, Considering ourselves
as the Guardians of unborn millions. and, O our God! in the
midst of this Struggle, which we think is agreable to thy
will, we would look up for thy Direction and Assistance. may
the Liberties of America Still flourish under thy Smiles, as
they eminently did in the Days of our Fathers. may we trust in

to the in every Step we take, and do thou give us an head to Contrive, and an Heart to execute, and grant in the most adverse Situation of our public affairs, we may trust in thee, and may this be the prevailing Sentiments of us all,
In Freedom we're born and in Freedom will die.

Voted That the foregoing Journal after being Read be Sent to the Committee of Correspondence of the Town of Boston.

Congress, July 4, 1776

A Declaration by the Representatives of the United States of America In General Congress Assembled.

When in the Course of human Events, it becomes necessary for one People to Dissolve the Political Bands which have connected them with another, and to assume among the Powers of the Earth, the Seperate and equal Station to which the Laws of Nature and of Nature's God entitle them, a decent Respect to the opinions of mankind requires that they should declare the causes which impel them to the Seperation. We hold these truths to be self-evident that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness—that to secure these Rights, Governments are instituted among men, deriving their just Powers from the Consent of the governed, that whenever any form of government becomes destructive to these ends, it is the Right of the people to alter or to abolish it, and to institute new government, laying its foundation on such Principles, and organizing its Powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence indeed will dictate that governments long established should not be changed for light and transient Causes; and accordingly all Experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long Train of Abuses and Usurpations, pursuing invariably the Same object, evinces a Design to reduce them under absolute Despotism, it is their Right, it is their Duty, to throw off Such Government, and to provide new Guards for their future Security. Such has been the Patient Sufferance

sufferance of these Colonies; and such is now the Necessity which Constrains them to alter their former Systems of Government. The History of the present King of great-Britain is a History of Repeated Injuries and Usurpations, all having in direct object the Establishment of an absolute Tyranny over these States. To prove this, let facts be Submitted to a Candid world.

He has refused his assent to Laws, the most wholesome and necessary for the Publick good.

He has forbidden his Governors to pass Laws of Immediate and pressing Importance, unless Suspended in their operation until his assent should be obtained; and when so Suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the Accommodation of large Districts of People, unless those People would relinquish the Right of Representation in the Legislature, a Right inestimable to them, and formidable to Tyrants only.

He has called together Legislative Bodies at Places unusual, uncomfortable, and Distant from the Depository of their Publick Records, for the Sole Purpose of fatiguing them into Compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly Firmness his Invasions on the Rights of the people.

He has Refused for a long Time, after such Dissolutions, to Cause others to be elected; Whereby the Legislative Powers, Incapable of Annihilation, have Returned to the People at Large for their Exercise; the State remaining in the mean Time exposed to all the Dangers of Invasion from without, and Convulsions within.

He has endeavoured to prevent the Population of these States; for that Purpose obstructing the Laws for Naturalization of foreigners; refusing to pass others to encourage their Migrations hither, and raising the Conditions of new appropriations of Lands.

He

He has obstructed the Administration of Justice, by Refusing his assent to Laws for establishing Judiciary Powers.
He has made Judges dependent on his will alone, for the Tenure of their offices, and the Amount and Payment of their Salaries.
He has erected a multitude of new offices, and sent hither Swarms of officers to harrass our People. and eat out their Substance.
He has kept among us, in Times of Peace, Standing armies, without the Consent of our Legislatures.
He has affected to render the Military independent of, and superiour to the Civil Power.
He has Combined with others to Subject us to a Jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giveing his assent to their acts of pretended Legislation:
for Quartering large Bodies of armed Troops among us:
for protecting them, by a mock Trial, from Punishment for any Murder which they Should Commit on the Inhabitants of these States:
for Cutting off our Trade with all parts of the world:
for imposing Taxes on us without our Consent:
for depriving us, in many Cases, of the Benefits of Trial by Jury:
for transporting us beyond Seas to be tried for pretended offences:
for abolishing the free System of English Laws in a neighbouring Province establishing therein an arbitrary Government, and enlarging its Boundaries, So as to render it at once an Example and fit Instrument for introducing the same absolute Rule into these Colonies.
for taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our governments:

for

for Suspending our own Legislatures, and Declaring themselves invested with Power to Legislate for us in all Cases whatsoever.
He has abdicated government here, by Declaring us out of his Protection and waging War against us.
He has plundered our Seas, ravaged our Coasts, burnt our Towns, and destroyed the Lives of our people.
He is at this Time, transporting large Armies of foreign mercenaries to Compleat the work of Death, Desolation, and Tyranny, already begun with Circumstances of Cruelty and perfidy Scarcely paralleled in the most barbarous ages, and totally unworthy the head of a Civilized Nation.
He has Constrained our Fellow Citizens. Taken Captive on the high Seas. to bair arms against their Country; to become the Executioners of their friends and Brethren, or to fall them Selves by their Hands.
He has excited Domestic Insurrections amongst us, and has endeavoured to bring on the Inhabitants of our frontiers the merciless Indian Savages, whose known Rule of warfare, is an undistinguished Destruction of all ages, Sexes, and Conditions.
In every Stage of these oppresions we have petitioned for Redress, in the most humble Terms: our repeated Petitions have been answered only by repeated Injury — A Prince, whose Character is thus marked by every act which may define a Tyrant, is unfit to be the Ruler of a Free People.
Nor have we been wanting in Attention to our British Brethren. we have warned them from Time to Time of Attempts by their Legislature to extend an unwarrantable Jurisdiction over us. we have reminded them of the Circumstances of our Emigration and Settlement here. we have appealed to their native Justice and Magnanimity, and we have Conjured them by the Ties of our Common Kindred to disavow these usurpations, which would inevitably interrupt our Connexions and Correspondence. They too have been Deaf to the voice of Justice and of Consanguinity. we must,

Therefore

Therefore, acquiesce in the necessity which denounces our Seperation, and hold them, as we hold the rest of mankind, Enemies in war; in Peace, Friends.

We, therefore the Representatives of the united States of America, in General Congress assembled, appealing to the Supreme Judge of the Rectitude of our Intentions, do, in the name and by the Authority of the good People of these Colonies, Solemnly Publish and Declare, that these united Colonies are, and of Right ought to be, Free and Independent States; that they are absolved from all Allegiance to the British Crown; and that all political Connexion between them and the State of Great-Briton, is, and ought to be totally dissolved; and that as free and Independant States, they have full Power to levy war, Conclude peace, Contract Alliances, establish Commerce, and to do all other acts and things which Independant States may of Right do. and for the Support of this Declaration, with a firm Reliance on the Protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our Sacred honour.

Signed by Order and in Behalf of the Congress.

John Hancock, President.

Attest Charles Thompson, Secretary.

In Council, July 17th, 1776

Ordered, that the Declaration of Independence be printed, and a Copy Sent to the ministers of each Parish, of every Denomination, within this State; and that they Severally be Required to read the Same to their Respective Congregations as Soon as divine Service is ended, in the afternoon, on the first Lord's-Day after they have received it:—And after such Publication thereof, to deliver the said Declaration to the Clerk of their Several Town, or Districts; who are hereby required to Record the Same in their Respective Town, or District Books, there to remain as a perpetual memorial thereof.
